

Docker

Project 1

The image shows two screenshots of a web browser interface. The top screenshot displays a GitHub repository named 'docker_python' by user 'abdulsamimmondal'. The repository is public and has 1 branch and 0 tags. The file list includes Dockerfile, Jenkinsfile, README.md, app.py, and requirements.txt. The bottom screenshot shows the Docker Hub interface for the same user, displaying a table of repositories. The table has columns for Name, Last Pushed, Contains, Visibility, and Scout. The repository 'samimmondal/my-flask-app' is listed with a last push of 5 minutes ago, containing an image, and is public and inactive. The interface also includes a search bar, a 'Create repository' button, and links to 'Create an organization' and 'Create and manage users and grant access to your repositories'.

GitHub Repository: docker_python

Repository details: 1 Branch, 0 Tags, 8 Commits, 0 Stars, 0 Forks, 1 Watching.

Files and Commits:

File	Commit Message	Time Ago
Dockerfile	Create Dockerfile	2 hours ago
Jenkinsfile	Update Jenkinsfile	21 minutes ago
README.md	Initial commit	3 hours ago
app.py	Update app.py	6 minutes ago
requirements.txt	Create requirements.txt	2 hours ago
