

Assignment 1 Linux

Creating a new shell script

```
samim@9819fd877cfb527:~$  
samim@9819fd877cfb527:~$ touch script1.sh  
samim@9819fd877cfb527:~$ chmod +x script1.sh  
samim@9819fd877cfb527:~$ nano script1.sh  
samim@9819fd877cfb527:~$ nano script1.sh  
samim@9819fd877cfb527:~$ cat script1.sh  
echo This is my first shell script  
echo  
touch script2.sh  
echo  
ls  
echo End of shell script  
samim@9819fd877cfb527:~$ ./script1.sh  
This is my first shell script  
  
script1.sh script2.sh  
End of shell script
```

 samim@9819fd877cfb527: ~

```
GNU nano 7.2  
echo This is my first shell script  
echo  
touch script2.sh  
echo  
ls  
echo End of shell script
```
